```javascript
 1  document.addEventListener('DOMContentLoaded', function() {
 2      const audioElements = document.querySelectorAll('audio');
 3      const playButton = document.getElementById('play');
 4      const pauseButton = document.getElementById('pause');
 5      const nextButton = document.getElementById('next');
 6      const songTitle = document.getElementById('song-title');
 7      let currentTrack = 0;
 8
 9      function playAudio() {
10          audioElements[currentTrack].play();
11          songTitle.textContent = audioElements[currentTrack].src.split('/').pop();
12      }
13
14      function pauseAudio() {
15          audioElements[currentTrack].pause();
16      }
17
18      function nextAudio() {
19          audioElements[currentTrack].pause();
20          currentTrack = (currentTrack + 1) % audioElements.length;
21          playAudio();
22      }
23
24      playButton.addEventListener('click', playAudio);
25      pauseButton.addEventListener('click', pauseAudio);
26      nextButton.addEventListener('click', nextAudio);
27  });
28
29
30
```
